

TYCHO VAN ROSMALEN

SKILLS

Mainly I'm good with programming in C#, React.js, HTML, SCSS, C++, and .NET. In addition, there are always thoughts in my head for new ideas and possible improvements. Learning is also something that interests me.

GOAL

My goal later is to become a successful full stack Software Developer. I would like to work with this in the front-end and with databases. Back-end and databases are certainly no problem.

WORK EXPERIENCE

Stock Clerk | Albert Heijn | 28/07/2020 - Today

As a stock clerk, I'm responsible for knowing where products are located and professionally communicating with customers.

Bartender | Mise & Place | 08/05/2022 – Today

As a bartender at this employment agency, it's up to you to tap perfect beers, replenish stock, and offer guests something to drink.

EDUCATION

Software Development | 18/09/2020 - Today | MBO Level 4

My skills:

Laravel – 6/10

C++ - 8/10
