TYCHO VAN ROSMALEN

SKILLS

I am good with programming in C#, React.js, HTML, SCSS, C++, and .NET. In addition, there are always thoughts in my head for innovative ideas and improvements. Learning is also something that interests me.

GOAL

My goal later is to become a successful full stack Software Developer. I would like to work with this in the front-end and with databases. Back-end and databases are certainly no problem.

WORK EXPERIENCE

Stock Clerk | Albert Heijn | 28/07/2020 - Today

As a stock clerk, I am responsible knowing where products are located and professionally communicating with customers.

Bartender | Mise & Place| 08/05/2022 – Today

As a bartender at this employment agency, it is up to you to tap perfect beers, replenish stock, and offer guests something to drink.
